QUBIX MANAGEMENT SERVICES LLC was established with an objective to provide ISO Consultancy Services for various ISO standards to improve organizations performance, productivity , quality of work , work environment ,Health & Safety of personal and the way people work in the organizations. Our consulting solutions are suitable for all types of organizations irrespective of their size, nature of business, location, number of employees, turn over, etc..

Our ISO consulting services covers training, gap analysis, documentation, implementation assistance, internal audit, pre-assessment audit, assistance in selection of the certification body and successful completion of certification audit.

Once the organization get ISO certified, we make sure that they continue getting benefits from our post certification services to continually improve the effectiveness of their Management system .We maintain their compliance level and provide necessary assistance for completion of periodical surveillance / re-certification audits ,without any set back.

We provide consultancy for most of the standards and some of them are as follows:

1.ISO 9001:2015 - Quality management system

ISO 9001 is the international standard that specifies requirements for a quality management system (QMS). Organizations use the standard to demonstrate the ability to consistently provide products and services that meet customer and regulatory requirements.

2.ISO 14001:2015- Environment Management System

ISO 14001 is an internationally agreed standard that sets out the requirements for an environmental management system. It helps organizations improve their environmental performance through more efficient use of resources and reduction of waste, gaining a competitive advantage and the trust of stakeholders

3.OHSAS 18001/ ISO 45001:2018 - Occupational Health and Safety Management System

The occupational health and safety (OH&S) management system, ISO 45001, is a new international standard that provides a framework for an organization to manage risks and opportunities to help prevent work-related injury and ill health to workers

4.ISO 22000:2018 Food safety Management system

ISO 22000 is a Food Safety Management System that can be applied to any organization in the food chain, farm to fork. Becoming certified to ISO 22000 allows a company to show their customers that they have a food safety management system in place.

5. AS 9100, AS 9110 & AS 9120- Quality Management system for Aerospace

AS 9100 / AS 9110 / AS 9120 is an aerospace standard and is applicable for all kinds of industry engaged directly or indirectly with aerospace industry.
